

# Oregon-Washington Water Year 2022 Recap & 2023 Outlook Meeting

---

Takes place virtually on October 25 & 26, 2022 (*all times PDT*)

October 25: Water Year 2022 Review		Presenter
9:00	Welcome, Objectives, and Opening Remarks	<i>Karin Bumbaco, Office of the WA State Climatologist, UW</i> <i>Joe Casola, NOAA Western RCSD</i>
2022 Water Year Impacts		
9:25	Survey Results: Annual PNW Water Year Impacts Survey & CMOR	<i>Crystal Raymond, Climate Impacts Group, UW</i>
9:40	2022 Water Year Impacts and Responses Discussion	<i>Breakout Group Discussions</i>
2022 Water Year Climate Recap, Impacts, and Responses		
10:05	Oregon & Washington Water Year 2022 Climate Recap	<i>Karin Bumbaco, Office of the WA State Climatologist, UW</i>
10:35	2022 Water Year Impacts and Responses Discussion Report Out	<i>Group Discussion</i>
10:50	<i>Break</i>	
2021 and 2022 Water Year Impacts and Responses		
10:55	<i>2021 and 2022 Water Year Impacts and Response Actions for Multiple Sectors</i> <ul style="list-style-type: none"><li>• Nooksack Salmon Recovery perspective on fall flooding and summer 2021 low flows, <i>Michael Maudlin, Nooksack Indian Tribe</i></li><li>• Multi-year forestry impacts, <i>Danny DePinte, U.S. Forest Service PNW Region</i></li><li>• Apples and cherries, <i>Bernardita Sallato, Washington State University</i></li><li>• Water Supply, <i>Josh Bailey, North Unit Irrigation District</i></li></ul>	
12:00	<i>Q&amp;A with Panel Participants</i>	
12:25	Wrap up and Close	<i>Karin Bumbaco, Office of the WA State Climatologist, UW</i>

# Oregon-Washington Water Year 2022 Recap & 2023 Outlook Meeting

---

October 26: Water Year 2023 Outlook		Presenter
9:00	Welcome, Objectives, Recap of Day 1	<b><i>Crystal Raymond, Climate Impacts Group, UW</i></b>
2023 Climate Outlook		
9:15	The 2022-2023 Winter Outlook	<b><i>Treena Jensen, Portland National Weather Service</i></b>
9:45	Likelihood of Drought Recovery	<b><i>Larry O’Neill, Oregon Climate Service, OSU</i></b>
10:00	<i>Climate Outlook Q&amp;A</i>	
10:05	2023 Snowpack Challenge	<b><i>Jeff Marti, WA Dept. of Ecology</i></b>
Climate Projections and Increasing Resilience		
10:10	2022 conditions and CMIP6 projections	<b><i>Matt Rogers, Climate Impacts Group, UW</i></b>
10:25	WA Water Systems Plan Review	<b><i>Erica Asinas, Climate Impacts Group, UW</i></b>
10:40	Long-term Resilience Actions Discussion	<i>Group Discussion</i>
11:00	<i>Break</i>	
Monitoring, Long-term Trends, and the 2021 Heat Wave		
11:10	Sensitivity of Puget Sound’s marine water quality to physical conditions	<b><i>Natalie Coleman, WA Dept. of Ecology</i></b>
11:25	Could we have foreseen the possibility of the 2021 Portland heatwave?	<b><i>Nels Bjarke, University of Colorado Boulder</i></b>
11:45	Climate vulnerability of fish in southern Oregon	<b><i>Joe Benjamin, Forest and Rangeland Ecosystem Science Center, USGS</i></b>
12:05	Wrap up and Close	<b><i>Crystal Raymond, Climate Impacts Group, UW</i></b>
